**FULL STACK DEVELOPER | SPECIALIZE IN BUILDING PRODUCTS**

## Technical Skills

**Front-End Development:** HTML, CSS, JavaScript, React, Next, UI libraries
**Back-End Development:** Node.js, Express
**E-commerce Development:** WordPress, Shopify
**Database Management:** MongoDB, phpMyAdmin, NeonDB, PostgreSQL
**Other Libraries and Tools:** Zapier, Clerk, Prisma, Appwrite
**Cloud Technologies:** AWS Services: EC2, S3, CloudFront, RDS

## Experience/Projects

**SHRISHTI TOURS AND TRAVELS PRIVATE LIMITED**                                  **April 2024 – Present**
*Full Stack Developer*                                                                                   *MUMBAI, India*

- Developed **dynamic, responsive web applications** using React, Next, Prisma, Clerk, Node.js, MongoDB, and JavaScript, enhancing user experience and engagement.
- Implemented automated workflows, **reducing manual effort** and improving efficiency.
- Built an event management system with registration, **automated email notifications, and Google AppSheet integration for real-time attendance tracking**, replacing manual processes.
- Created a **centralized itinerary management platform**, **streamlining supplier communications** and improving itinerary management.
- Currently developing a **unified booking system** integrating **hotel, flight, and insurance APIs** to reduce dependency on multiple platforms.
- Technologies: React, Node.js, MongoDB, JavaScript, WordPress, Google AppSheet, API Integration (Hotels, Flights, Insurance).

**JSAEcom – 3D Printing Company**                                                                      **April 2022 – 2024**
*Website Developer, Automation*                                                                      *MUMBAI, India*

- Developed a **WordPress-based eCommerce platform** for selling 3D-printed cookie cutters across Amazon, Flipkart, and the company's website.
- **Automated order and manufacturing processes** by **integrating Amazon, Flipkart, and OctoPrint APIs with a MySQL database, eliminating manual order verification.**
- Enabled **real-time order processing**, allowing 3D printers to **automatically start printing based on incoming orders**, streamlining production and **reducing delays**.
- Technologies: WordPress, Amazon and Flipkart APIs, OctoPrint API, MySQL, eCommerce Automation.

## Personal Projects

**Itinerary Wizard – Automated Itinerary Management**                                   **Currently Working**

- Itinerary Wizard – **Automated Itinerary Management**
- Built an **AI-powered tool** to extract, structure, and store travel itineraries from emails, **eliminating manual data entry**.
- Generates a **dynamic webpage** and a shareable URL fo**r instant itinerary access.**
- Integrates **email & WhatsApp broadcasting** with double-tick confirmation.
- Supports **custom domains and webhooks** for seamless **website integration** (WordPress and other platforms).
- Tech: Gemini AI,  AI Email Parsing, Database, Webhooks, WhatsApp & Email API, Dynamic Web Pages.

## Education

**Mumbai University**                                                                                       **Aug 2021 – Sep 2023**
*M.com*                                                                                                              *Mumbai*
